## CUSTOM SIGN SHOP

YOUR SIGN.  
YOUR WAY.

## How It Works

- ◆ High Quality
- ◆ No Minimums
- ◆ Easy Ordering

**HY-SIGN Custom Sign Shop provides a quality custom product and a simple ordering process every time.**

There are three categories of Custom Signs: **Aluminum**, **Plastic**, and **Specialty**. Sign placement often determines the best material for your sign.

**Aluminum** is one of the best materials for outdoor signs because it's lightweight, durable, and affordable. Aluminum signs are available in many standard sizes and weights.

**Plastic** signs are versatile. They can be made to almost any size, with a variety of thicknesses. HY-SIGN experts point you to the best plastic for indoor and outdoor applications.

**Specialty** describes any type of signage outside the scope of a flat rectangle sign. This includes decals, cut vinyl graphics, house numbers, and ADA/Braille signs. We have endless capabilities available for a variety of signage needs.

- ◆ **FREE** Quotes
- ◆ **FREE** Proofs
- ◆ **FREE** Shipping on orders \$150+
- ◆ **No set-up fees**
- ◆ **No extra charge for graphics\***

\* Basic graphic service free of charge. Extensive art/typesetting subject to fee.

# The Order Process

- 1 What kind of sign do you need?**  
 Use our order form, or email a brief description to request a proof & quote. Include photos or web images if you have them.
- 2 Proof & Quote**  
 Hy-Sign Custom Sign Shop turns your request into a proof. We quote how long it will take and how much it will cost. Custom Signs typically ship within 5-7 working days or less.
- 3 Proof & Quote Approval**  
 You approve the proof/quote for production. Changes to the proof can be made if needed.
- 4 Place Your Order**  
 Provide a purchase order and MWF account number to process your order.
- 5 We Get to Work**  
 It's time to make your sign!
- 6 Your order ships from our warehouse in Northfield, Ohio.**
